

# **BATTLE UPDATE**

**We can now confirm that the Consent Order that formally quashes the planning permission for the wind farm has been sealed by the High Court and is in the possession of the BATTLE solicitors.**

**We now have to wait and see if the Secretary of State decides to continue with the development and if so in what way. BATTLE solicitors will be arguing for a FULL public inquiry at which a new inspector should be appointed and not one that just deals with the grounds we have objected to already.**

**In the meantime NPower no longer has permission to carry out any physical work on site and should be reported immediately if they are seen doing so.**

Keep your eyes open as NPower have already shown contempt for our legal system when they carried out their recent road test, against the advice of Maldon District Council & knowing full well the results would be invalid and the exercise would need to be repeated if planning is eventually granted.

**We would like to reassure all BATTLE members that the committee remain resolute in doing everything in our power to prevent this development. The BATTLE solicitors are specialists in this field, they have got us this far and we have every confidence they will continue to work hard on our behalf.**

**It has been agreed by the High Court that all our reasonable costs will be repaid. However our fight is far from over and we hope everyone will agree that it is vital to keep the fund intact for future costs.**

**We must also keep money coming in. If you are not already a member of the BATTLE Lottery please check out our website and join – you stand a great chance of winning and it helps to keep the fighting fund topped up.**

**Whilst newsletters such as this are a great way to keep everyone informed they are expensive both in materials and time and we would therefore like to keep everyone informed via our website which has recently been completely revamped and is full of lots of useful information and will include the most recent news on the fight against the development.**
